

Evidences of a Creator

How Science
Reveals God

Thursday, April 11, 6:00-8:00 pm

Bolton Hall Room B52

A question and answer time follows the presentation

By Gunnar Dieckmann, Ph.D. in Chemistry

Many hold the view that science either cannot support the concept of a Creator God. Come and find out if there are scientific reasons for believing in a transcendent Creator.

The speaker has lectured on science and religion and received his Ph.D. from UW Madison.
